About GPS BM

GPS Building Management is a proudly Australian-owned company, we offer a complete range of services at a very cost-effective price to meet our valuable customer's specific requirements.

We offer our clients the same experience, and management as a large corporation but with the personal involvement and agility of a small company.

At GPS Building Management we offer the flexibility whether you're seeking full service or wanting a part time service, we can tailor a quality solution that best fits you and your building's needs.

Our dedication to client satisfaction ensures that our clients receive the most comprehensive professional services.

Our Key Services

GPS Building Management offers a comprehensive suite of facilities management services for residential strata, commercial, industrial and retail sectors.

Our facilities management program will assure that your facility is running smoothly, efficiently and at peak performance while paying careful attention to the needs and goal of the operator.

Services include:

- Facilities Management
- Asset Management
- Defects Process
- Building Condition Report
- Cleaning
- Landscaping
- General day to day maintenance

GPS Building Management was formed on the foundation that every building offers a unique space and therefore, every residential strata, commercial and retail sector deserves the tailored care and attention to meet the needs of our clients.

We work
for you...
always

Why choose GPS?

GPS Building Management strives for a true partnership with each one of our customers, where customer satisfaction becomes the only true measure of our success.

We pride ourselves on our honesty, dependability, accountability and accessibility. The relationships we forge with our clients are meaningful and enduring, integrating people and processes and setting the regional benchmark in service delivery.

In everything we do, you will 'experience the uniqueness'. GPS Building Management is committed to providing exceptional standards in each service we offer. The passion and expertise of our dedicated staff promises a truly memorable service.

We have successfully developed strong long-term relationships with our clients by ensuring the most cost effective and environmentally friendly services are provided by our team of trained professionals. These services include:

- Facilities Management
- Cleaning
- Landscaping
- Maintenance
- Concierge
- OH & S Compliance
- Budgeting
- Environmental Sustainability
- Audit Process

OUR VISION

To be recognised as a leading Facility Management service provider in the residential strata, commercial, industrial and retail sectors.

The GPS Chain of Command

To enable us in providing a quick and effective response to all the needs of our Customer's requirement, we have a short and flexible yet efficient chain of command. The personnel assigned to your facility are directly in charge of all day-to-day tasks. The personnel will work closely with the manager in conjunction with the operation of the immediate area. This ensures continuity and high-quality performance.
